Report of Ezra Cary, Town Agent of New Burying Ground.

Amount due the Ground this day as per Record $110.15. In addition six Lots have been sold, not paid for, and but little prospect except in the case of one.

There is a Book of Record of all Lots sold to whom and when paid for; also there is a plan of said Ground, giving one inch to each Lot, with the owners name when sold.

There was once an expression by the Town that the Lots sold ought to keep the ground and fence in repair; and your Agent has acted in accordance with such a wish. There has been some 230 stone posts put up for bounds, and wants some 150 more to fix all bounds, but have delayed that expense for the present as the fence will soon require considerable repairs. There will also be some other items of material and labor to keep it in order this season.

All of which is Respectfully submitted,
Ezra Cary, Agent.

Enfield Mass April 5th 1880.

To the Selectmen of the Town of Enfield

We the Undersigned, Citizens of the Town of Enfield and residents of the "Highway District known as the Packardville", believing that the manner by which the highway surveyor for our district was chosen, at the last Town meeting, was contrary to a previous vote taken by the Town Viz "that the Highway Surveyor shall be chosen from the highway district he represents" Would pray you to bring this petition before the town at the town-meeting to be held this day - In which we Pray the Town of Enfield to reconsider the vote taken at its last Town meeting by which Reuben Fleming was chosen highway Surveyor for the Packardville district and pray that Elbridge Packard, the surveyor for this district during the year past - who gave good satisfaction to the residents of this district, and at a much less expense to the Town than either of the three years previous to his term of Office - be chosen Highway Surveyor for the Packardville District for the ensuing year in place of Reuben Fleming chosen at the last Town meeting of the Town of Enfield - All for which we humbly pray, believing the change would be for the best interests of the Town of Enfield, and for us as residents of this highway District.

After discussion it was Voted That this protest or petition, lie on the table.

Voted To accept and adopt the reports of the various Town Officers.

The town next listened to a verbal report from L. D. Potter Chairman, concerning the bridge at the Upper Village in which repairs were recommended.

Under Article 4th of the warrant it was voted to raise the following sums of money recommended by the Selectmen -

Contingencies.	One Thousand	Dollars	($1000-)
Highways & Bridges	Fifteen Hundred	"	(1500-)
Schools (including Books)	Fifteen Hundred	"	(1500-)
Paupers	Eight	"	(800)
Interest acct	Nine	"	(900)
Debt	One Thousand	"	(1000-)

Next came the report of the Committee chosen to investigate the matter of Art 12. Concerning Engine House, Lock-up &c -

Your Committee have attended to their duty and beg leave to make the following report - With regard to an Engine House. We recommend that the Town hire a suitable place for the present, and we advise the hiring of a part of the building owned by the Minot Co. near the Grist Mill - formerly occupied as a Harness Shop. The Treasurer of the Co. agrees to provide suitable doors to the entrance of said room and rent the same for a term of years for twenty dollars per annum. In regard to the matter of a Lock-Up Your Committee are of the opinion that the Town had better postpone the building of one for the present - In regard to providing water to be used in case of fire and for the public good, your Committee have viewed several places and are satisfied that a place near the dam of J. H. Woods is the best, all things considered, as Nature has provided a foundation and but little needs to be done to build a reservoir which will be large enough to supply any demand which the town will make upon it, and the expense of the dam would not exceed twenty-five dollars - The distance from said location to the guide-post near the Post Office is 140 rods. The expense for digging ditch and filling same will be $75. The Expense of 1½ inch iron pipe delivered in Enfield will be about 450 dollars. The expense of iron tub for watering animals, and tank for water, to be used in case of fire and for other purposes will be about 175 dollars - Your Committee are strong in the belief that the whole job can be completed for a sum not much above 700 dollars, but would recommend

the appropriation of 800 Dollars for this purpose. We honestly believe that this job when completed will be one of the greatest blessings to both man and beast which was ever brought about for the benefit of the people of this town, and after one years experience in the various uses of this water, no reasonable sum of money would compensate them for the deprivation of the same. We are aware that taxes are a great burden to many, but when we consider that the tax for this outlay will be only 12½ cents on one thousand dollars worth of property, it does seem to us that so good an object will meet the universal approval of voters and citizens —

There are several parties who would like to rent rights to use water in their buildings and will pay a reasonable sum annually for the same and your Committee think that enough can be rented to pay a good interest on the whole investment —

Your committee do not advise, but leave with the Town to decide, whether they will continue the water-works as far as the Churches. (in case they should be completed as far as the Post Office.)

Hoping that this report will be favorably received by the town it is respectfully submitted
